3rd October 2022 - Update "Warrawee Senioreeta"

After making the decision to cease commercial operations and breeding, my quality mare "Warrawee Senioreeta", the dam of "Imoan Samuel" the last foal sired by my deceased stud stallion "Niarob Shou-Lin--El-Sadat" is For Sale as a broodmare or ridden prospect requiring some more basic handling.

==Warrawee Senioreeta== was sold in September 2018 to be trained to saddle and utilized as a ridden mare. "Reeta" was trained to saddle and In May 2020 I repurchased "Reeta" from her then current owner XXXXX who informed me that she had purchased her at the Echuca Auctions in September 2019 -12 months after I first sold her. XXXXX continued riding her until her workload became too much when her other horses returned to work. "Reeta's" sale was a major surprise to me.

I repurchased "Reeta" at the auction with the aim to use her as a ridden mount for my wife, and to breed again at a later date. "Reeta" has been gracing the paddocks and neither the ridden work nor breeding has occurred. .

I was told she did endurance training rides and barrel racing (unconfirmed). "Reeta" is a top-quality AWB mare with an excellent performance pedigree, and she is a proven broodmare. I have ridden "Reeta" in the round yard a few times and she has no issues being ridden, but she is difficult to bridle. It seems that at some stage she may have been mishandled at pulling her ears forward to place the bridle over her head. I have worked to desensitize around her ears, but this is a slow patient process. She is easy to halter, lead, handle, trim, serve, and she is an excellent broodmare and mother.

==Warrawee Senioreeta" is for sale as a Broodmare already trained to saddle, but with the understanding she may require more desensitizing to use a bridle. I have reduced her price to be sold as a broodmare.==

"Reeta" is available For Sale at ~ $1,800 (Includes GST)
